Spill Containment

Regulations

Most pollution incidents are avoidable. Careful planning of facilities and operational procedures can reduce the risk of spillage and simple precautions can prevent a spillage becoming a pollution incident. Most of the measures needed to prevent pollution cost very little. In contrast, the costs of cleaning up a pollution incident and possible compensation claims can be very high.

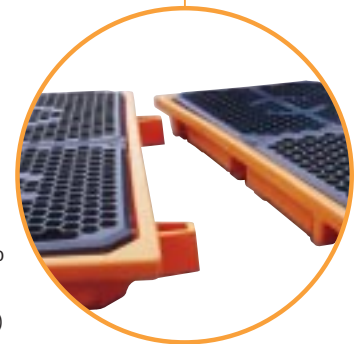

What you need to do

Pollution prevention measures also offer substantial economic benefits, these include avoiding wastage of expensive raw materials, minimising the risk of spillages, and reducing the risk of prosecution for pollution offences.

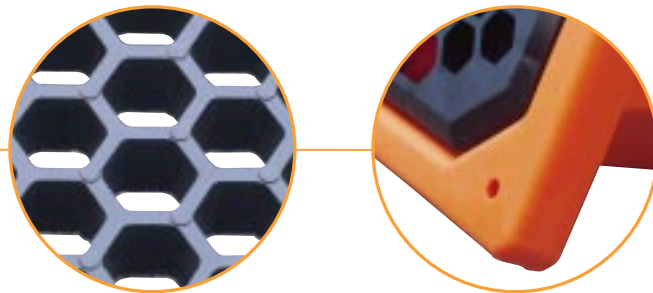

The SpillSafe range of pollution prevention products from Titan Environmental is designed to ensure that industrial and commercial properties comply with the Control of Pollution (Oil Storage) Regulations and site Health and Safety Regulations.

The Titan SpillSafe range is moulded from high quality impact and UV resistant polyethylene. Products will not rust or corrode and are fully recyclable.

Drip Tray

- Suitable for storing a drum of up to 210 litres
- Removable deck for easy cleaning
- Requires no assembly and is finished in a bright orange for ease of visibility

Protecting your Workplace

- Engineering companies
 - Factories
 - Workshops
 - Garages
- Industrial sites
 - Hospitals
 - Marinas

1 Drum Drip Tray

Capacity	55 Litres
Length	758 mm
Width	758 mm
Height	150 mm

Workfloors

- For safe storage and workplace protection when filling and dispensing from chemical drums
- Designed to withstand constant use as a raised work floor area
- Use link blocks to create customised work areas to improve safety and efficiency
- Link blocks are available in pairs to securely fasten multiple 2 & 4 drum workfloors together
- Suitable for the storage of drums up to 210 litres
- Removable decks for easy cleaning
- Requires no assembly

Link Blocks for the 2 & 4 Drum Workfloor

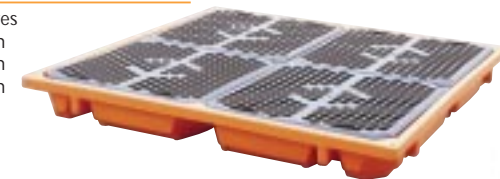

2 Drum Workfloor

Capacity	112 Litres
Length	1400 mm
Width	758 mm
Height	150 mm

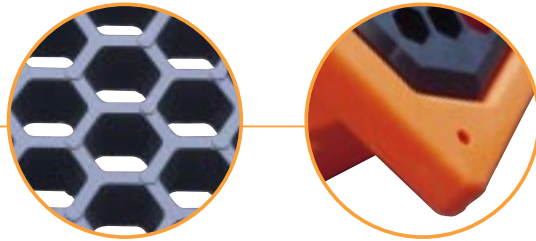

4 Drum Workfloor

Capacity	215 Litres
Length	1400 mm
Width	1400 mm
Height	150 mm

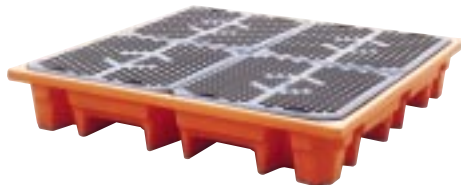

Bunded Pallets

- Fork lift slots for positioning empty pallets
(pallets should not be moved when loaded with drums)
- Suitable for the storage of drums up to 210 litres
- Removable decks for easy cleaning
- Requires no assembly

2 Drum Pallet

Capacity	240	Litres
Length	1400	mm
Width	758	mm
Height	385	mm

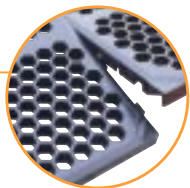

4 Drum Pallet

Capacity	250	Litres
Length	1400	mm
Width	1400	mm
Height	250	mm

PE Deck (replacement decks)

Length	655	mm
Width	655	mm
Depth	40	mm

Protecting your Workplace

- Engineering companies
 - Factories
- Workshops
- Garages
- Industrial sites
- Hospitals
- Marinas

Waste Oil Wells

- Integrally bundled
- Fitted with Bundman leak detection system
- Waste Oil Watchman Plus available on request
- Other sizes are available, contact Titan Environmental for further details

BOW 200

Capacity	200	Litres
	44	Gallons
Length	760	mm
Width	760	mm
Height	1265	mm

BOW 600

Capacity	600	Litres
	130	Gallons
Length	1440	mm
Width	860	mm
Height	1350	mm

BOW 1300

Capacity	1300	Litres
	285	Gallons
Length	1900	mm
Width	1220	mm
Height	1450	mm

BOW 2500

Capacity	2500	Litres
	550	Gallons
Length	2530	mm
Width	1470	mm
Height	1550	mm

Protecting your Workplace

- Workshops
- Factories
- Garages
- Industrial sites
- Commercial Kitchens
- Engineering works
- Marinas

Safe Storage...

A range of practical storage solutions for spill kits and absorbent materials.

- Suitable for the storage of all spill kit materials
- Requires no assembly

Spill Kit Bunker

Capacity 30 x 25 kg Bags
 Depth 1060 mm
 Width 1920 mm
 Height 1000 mm

Drum Cover

Diameter 635 mm
 Height 80 mm

140 Litre Spill Kit Bin

Capacity 140 Litres
 Depth 560 mm
 Width 488 mm
 Height 1055 mm

Large Spill Kit Bin

Capacity 407 Litres
 Depth 609 mm
 Width 1016 mm
 Height 1016 mm

Small Spill Kit Bin

Capacity 204 Litres
 Depth 482 mm
 Width 787 mm
 Height 787 mm

EcoSafe Systems

- The market leading safe oil storage system
- Fitted with the Watchman Plus proactive fuel monitoring system
- Top outlet option available for added safety
- Integrally bunded
- Suitable for the storage of a wide range of chemicals, contact Titan Environmental for further details.

ES 1000

Capacity 1000 Litres
 220 Gallons
 Length 2130 mm
 Width 690 mm
 Height 1485 mm

ES 1225

Capacity 1225 Litres
 269 Gallons
 Length 2070 mm
 Width 1000 mm
 Height 1580 mm

ES 1300

Capacity 1300 Litres
 285 Gallons
 Length 1900 mm
 Width 1220 mm
 Height 1330 mm

ES 1800

Capacity 1800 Litres
 400 Gallons
 Length 2360 mm
 Width 1280 mm
 Height 1380 mm

ES 2500

Capacity 2500 Litres
 550 Gallons
 Length 2530 mm
 Width 1470 mm
 Height 1550 mm

ES 5000

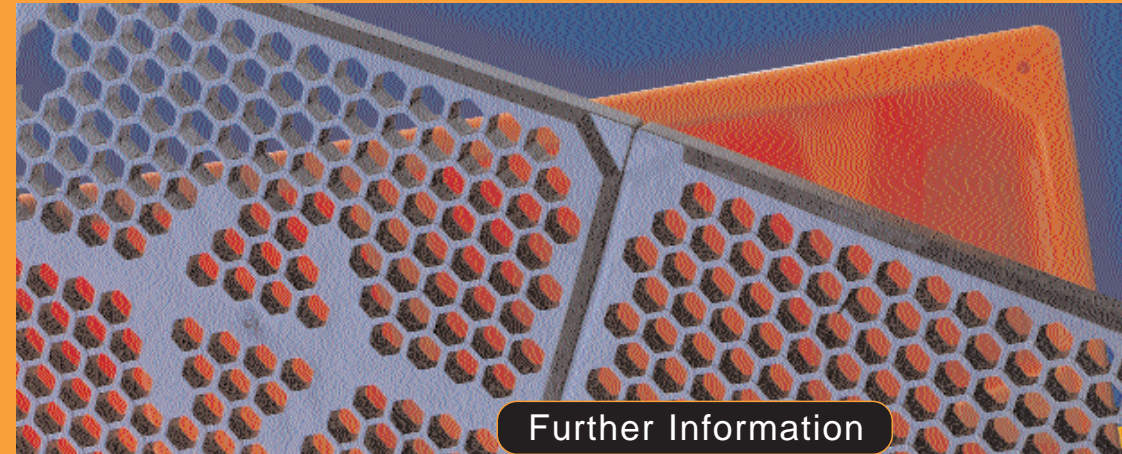

Capacity 5000 Litres
 1100 Gallons
 Diameter 2250 mm
 Height 2400 mm

Fuelmaster Systems

Fuelmasters are the most popular method of storing and dispensing diesel fuel for commercial, industrial and agricultural applications. Available in a range of sizes Fuelmaster systems enable you to manage your fuel and increase efficiency.

- Safely store and dispense diesel fuel
- Integrally bunded and complies with regulations
- Lockable
- Range of pump options available
